BYOD WiFi Connection Instructions for Students.

First you'll need to connect to the **NSCConnect** WiFi network. This network can be accessed from around the following 3 locations. (Library, Senior Common Room and B1-B3)

Once you're connected to the **NSCConnect** WiFi, navigate to the following address in your internet browser: [http://nscconnect.com](http://nscconnect.com)

Read and follow the instructions on the website. (You will be downloading a tool from there that completes the connection process)

Once connected to the college WiFi (eduSTAR) you can navigate your way to Norwood’s landing page at [http://home.norwood.vic.edu.au](http://home.norwood.vic.edu.au) (This is a good jump point for reaching other useful school resources.)
